

I talked about our progress since the restructure last April and the challenges being faced.

- Movement of health visiting clinic to Woody's following Centre Closure and positive feedback from this.
- Attempts to offer Family Support Clinic & appeal for future base for this as uptake at the school was low.
- Description of family support offered on 1:1 basis within the area
- Request for suitable accommodation to be able to offer periodic baby massage and baby signing courses
- Update of our universal services being run by Community Parent Volunteers across the whole of the Sudbury Cluster enabling Family Support Practitioners to offer more targeted groups and 1:1 support.
- How important it is to the Children's Centre to work with local area provision.
